## OUR \$8.75 SUITS

Have proved themselves the magnets that have drawn hundreds of people to our store in the past weeks. We have about 350 Suits left.

The Price Will Remain

Unchanged!

as long as they hold out. These Suits are made up from desirable, fashionable fabrics, the styles are correct, the workmanship is the same as you expect to find in made-to-measure clothing. If you think that the description is overdrawn, all we have to say is you will find the statement backed up by the goods. When we tell you that we are selling

Regular \$12, \$14 and \$15

Suits for \$8.75!

that's exactly what we are doing, and if you come and buy one of these Suits and find, after you take it home, it does not look the same as it did to you in the store or otherwise is not perfectly satisfactory, bring it back and we will, without a murmur, return you the money. If anybody can tell us how to put the subject plainer or how to make a stronger guarantee we would like to have them do it.

**Our finest Suits that sell from \$12.50 to \$18 are worn by the best dressers in the city and county.**

In Children's and Boys' Suits

we are sweeping everything before us. We have such a large variety in these lines that we can suit fit all.

**H ECHINGER & CO.**  
THE LEADERS IN GOOD CLOTHING.

Regular meals 25 cents at Roper's New Era.

Dr. Landman will be at the Central tomorrow.

Don't fail to place your "ad" in THE LEDGER if you want the most for your money.

Mrs. David Hunter felt the shock of the earthquake very perceptibly at her home in the city.

Evangelist Fise wisely waited till the Legislature adjourned before he tucked the sinner of Frankfort.

Mrs. Alexander Rader of the county, who has been very infirm for some time, is now reported much improved in health.

Croceum is the best and cheapest disinfectant on the market. As a sheep-dip it is unequalled. On sale at Cheneowth's Drugstore.

Mrs. Charles Calvert of Mt. Carmel, who is in Cincinnati for treatment, is improving nicely and hopes to be home in a few weeks.

The alarm yesterday at 12:20 was caused by a small blaze in the rear of the house occupied by Mrs. Austin Holmes on Limehouse street.

### DIED NEAR SPRINGDALE.

Mr. Edwin McDonald, a Victim of Consumption, Passes Away.

Mr. Edwin McDonald, after a lingering illness of consumption, died at 4 o'clock yesterday morning at his home near Springdale.

Mr. McDonald was well known in the county, and was esteemed by all who knew him.

His wife, who was Miss Ida Brooks, sister of Mrs. T. P. Degman of Springdale, and one child, survive.

The funeral took place this morning at 10 o'clock at Bethany Church.

### HUKE FOSSIL.

*Petrified Skeleton of a 300-Foot Monster Being Exhibited Near Chicago.*

A curiosity in the way of a giant fossil, which local paleontologists pronounce genuine, is being exhibited South of Chicago by an Oklahoma territory man.

Hammond, Ind., Chicago Heights and other small towns in the suburbs have seen this wonder. Now the Chicago Academy of Science is after it, and the wonder of it all is that the exhibit, which is on view inside the small, greasy, dirt-besmeared tent, is genuine—scientists say so.

The wonder is nothing more nor less than the fossilized skeleton of the sea lizard that died in that ocean of long ago. Charles F. Gunther, Alderman, merchant and paleontologist, is a director of the academy. He heard of the gigantic fossil and went to Hammond. He paid a "dime, ten cents," and was wonderstricken.

"It is the most wonderful and the most colossal fossil ever unearthed," says Mr. Gunther. "Its proportions are simply gigantic. There are vertebrates, a complete skull, small ribs and flippers that are mammoth in size. There can be no deception about it. The exhibit is that of a fossil, fully petrified, the bones being calcareous.

"There are fifty or more vertebrates each as big as the joint of a stovepipe. The head is 16 feet in circumference, and has a long protruding bone, five feet across, like the beak of a bird. The ribs are twenty-five feet long, half hooked in contour, and the eye sockets are four feet across. The propellers, or fins, are perfectly preserved, and three feet wide and eleven long. I should judge from the proportions, that the lizard was 300 feet long."

Henry Patterson of Perry, O. T., is the lucky man who owns the remains of the lizard. The academy is trying to induce Mr. Patterson to sell his treasure to it. It is probable that the deal will be made, and Chicago will get the greatest wonder of prehistoric times that has been unearthed.

The fossil is that of a saurianodon, or sea lizard. In the Cherokee Strip the alluvial deposit just overlies the cretaceous or chalk formation, and the fossil was found by Mr. T. Patterson in a pretty clay not more than four feet below the surface.

Mr. Gunther is certain it is the largest fossil ever found. Prof. March of Yale, has restored skeletons of the reptiles of North America that are over one hundred feet long, but nothing so gigantic as the Cherokee Strip lizard has ever been brought to light on this continent.

Mr. John E. McLean died at German town Saturday, aged about 75. He had been ill a long time. Deceased was one of the best known and most respected citizens of his section, and if he had a personal enemy no one knew it. Mr. M. S. McLean is the only surviving brother.

"For three years we have never been without Chamberlain's Colic, Cholera and Diarrhea Remedy in the house," says A. H. Patten, with E. C. Atkins & Co., Indianapolis, Ind., "and my wife would swear that she has never had a headache since this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely. It is all right, and anyone who takes it will find it so." For sale by J. Jas. Wood, Druggist.

Creoenum is the best and cheapest disinfectant on the market. As a sheep-dip it is unequalled. On sale at Cheneowth's Drugstore.

Mrs. Charles Calvert of Mt. Carmel, who is in Cincinnati for treatment, is improving nicely and hopes to be home in a few weeks.

The "Greenwood Fund" has at last been gotten into shape.

It will be remembered that many years ago an English gentleman named Greenwood died near this city, leaving \$1,704 toward founding a Public Library in Maysville, which sum has by accumulated interest now reached \$3,350.

Last night the Ways and Means Committee met and formulated a plan for its future management.

The trust is to enter the \$3,000 on his books, making it a permanent obligation, and hereafter the city is to pay 6 per cent. interest—\$90 semi-annually—as the principal of the fund cannot be used.

The surplus of \$350 is made available at once, and is to be used in purchasing some needed cases and some additional books for the Library.

The fund is to be placed in the hands of a committee of three—one to be appointed by the City Council, one by the Board of Education, and one by the Mason County Historical Society.

## DOVER WILL DO HER SHARE.

[The following article, "Put Up or Shut Up," is reprinted from THE LEDGER of May 29th, and is reproduced in the hope that if any responsible party has the information asked for that it will be forthcoming.—ED. LEDGER.]

### PUT UP OR SHUT UP!

Four Pointed Words For Anonymous Letter Writers.

LET'S KNOW ABOUT COLONEL A. E. BOONE

If any one of the worthy gentlemen (who are sending anonymous letters to our citizens) deserves Colonel Boone's name as a swindle, will have the courtesy to write a letter for publication and sign his name to it. THE LEDGER will take great pleasure in giving it publicity.

Generally speaking, the anonymous letter-writer is a cowardly assassin.

The public is at all times entitled to know the truth about any man, or any set of men, engaged in any public enterprise.

It is not only the duty, but it should be the pleasure, of any newspaper to expose fraud and to save the public from imposition.

THE LEDGER has had only a short acquaintance with Colonel Boone; but it is the time he has so far discharged every obligation with scrupulous fidelity.

One thing is certain, there are very few men in Maysville who have the financial standing of some of the men who endorse both Boone and his Black Diamond Railway.

If Boone is a "gold brick man" or a "fool gas face," THE LEDGER wants to expose him—and will do it. He has a "hankering" in that direction, as some of its readers know.

Now, then, Messrs. Anonymous Letter Writers, put up or shut up!

And you needn't "burn this!"

LETTER FROM COLONEL BOONE.

Hiyley, O., June 1st, 1897.  
Editor LEDGER: The tidal wave of popularity swept over Hiyley last night; Ripley accepts my proposition and hence will be found from now on espousing the Black Diamond cause.

Dover, Ky., will swing into line Saturday night.

The West Union delegation was on hand last night. They returned this morning, and I am told with the result that the people massed in solid columns and will build the Black Diamond System of Railways, not only in Ohio, but through the Southland.

I am proud of the progress I am making. Success must crown the effort of the allied forces that will speak in measured tones that the time has come when a railroad for the people shall be constructed by the people that will give them a road at a prompt dis-

patching the traffic it will have to move to the markets of the world.

I cannot let this opportunity pass to express my deep sense of gratitude for the aid of forces that will speak in measured tones that the time has come when a railroad for the people shall be constructed by the people that will give them a road at a prompt dis-

patching the traffic it will have to move to the markets of the world.

I cannot let this opportunity pass to express my deep sense of gratitude for the aid of forces that will speak in measured tones that the time has come when a railroad for the people shall be constructed by the people that will give them a road at a prompt dis-

patching the traffic it will have to move to the markets of the world.

## Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

## HOW TO FIND OUT.

Fill a bottle or common glass with water and add a few drops of ammonia. If a sediment or settling occurs, it shows a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often mentioned that the Swamp Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the exhilarating effects of the Swamp Root are realized. It stands the highest for its wonderful cure of the most distressing cases. If you need a medicine you should have the best. Sold druggists, price 45 cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, address THE PUBLIC LEDGER and send your full name and address to Dr. Kimerer & Co., Binghamton, N. Y. The proprietors of this offer the genuineness of their offer.

**Horses Wanted:**

## WE'RE FOR AMERICA@AMERICANS!

PEOPLE who are inclined to criticize the apparent delay of Congress and the Administration in regard to Cuba should remember that an important step which might complicate the relations of this Government with one or more great Nations of Europe cannot be undertaken without careful thought and examination into the situation. The consular representatives in Cuba must, of course, to a great extent, be the eyes of the Administration, and with all those offices filled by men of a former Administration, it is not surprising that President McKinley and his Cabinet have found it necessary to exercise great caution in taking so important a step as that which is demanded by many people in the United States, or that they are unwilling to act until reports are received from their own representatives recently dispatched to that island. When the work which this Administration has already done in the release of American citizens from Cuban prisons and the relief of other Americans there from starvation is compared with the attitude and acts of the last Administration on this subject, it would seem that the contrast is decidedly striking.

HOW IMPATIENT and unreasonable has the American voter suddenly become. President McKinley has been less than three months in office, yet persons who claim to be intelligent and even thinking men go scolding and growling about because the new Administration has not accomplished more. Can any one of those who make this complaint point out any Administration in the history of the country which accomplished as much in as brief a space of time after its inauguration? Congress has been called together, a Tariff Bill framed, passed by the House, considered by the Finance Committee of the Senate, and is now under consideration in that body; prison doors have been opened in Cuba, and American citizens released in great numbers; a commission has been dispatched to Europe to inaugurate and initiate a movement in favor of a bimetallic conference; a commissioner has been dispatched to Cuba to obtain information in order that the President may act intelligently in regard to the matters of that island; a war ship has been sent to Hawaii to protect the American interests there and open the way for more important action regarding that applicant for membership in the Union; and changes in the offices are being made as rapidly as consistent with the conditions under which the Civil Service was left by the preceding Administration. If any gentleman who is inclined to be faultfinding with the progress of events under the new Administration can point to any Administration in which there was greater promptness of action, let him rise and be heard from; if not, let him cease breeding dissatisfaction by complaints.

## WOMAN'S RIGHTS.

Interesting Paper Written by Jessie T. Cassidy of Brooklyn, N.Y.

The adoption of the charter for Greater New York makes the coming municipal election an occasion of more that usual importance.

Tammany will make desperate efforts to gain the control. A movement has already been started which sums to unite all possible forces for the support of a ticket pledged to rescue the municipality from misrule of every kind. The Citizens Union, which has inaugurated this movement, has issued the following circular:

"The Union is made up of citizens of all opinions, all creeds, and all occupations, who believe that the city should be governed by the people and for the people, not by the bosses nor for the bosses. It is a union of men in all employments, in business, in the trades, in the professions, standing on the common ground of good citizenship. Honest, efficient, and intelligent city government is the object of the Union. Every voter who believes in that object is asked to join, without regard to his opinion as a Republican, a Gold Democrat, a Silver Democrat, or as a member of any national party whatever. The Union has no concern with Coinage, Free or Protection, or with National or state politics in any form.

"The Union demands an honest and efficient Administration, good schools, clean streets, more breathing spaces, better housing in the overcrowded parts of the city, better rapid transit facilities, strict supervision of the city's franchise, a full return for public privileges granted to corporations, and a just and fair enforcement of local statutes and ordinances.

"Disregarding all considerations of national and state politics and parties, the Union is pledged to nominate no candidate unless his character and record are such as to justify public confidence in his assurance that, if elected, he will not use his office, or permit it to be used, for the benefit of any political organization, but will administer it in all respects in accordance with the principles of this declaration."

R. Fulton Cutting is Chairman of the Committee on Organization, and amongst the men identified with the effort are Dr. Henry H. Choate, Dorman B. Eaton, Dr. E. G. Janeway, William B. Hornblower, Henry B. Kunkard, Dr. St. John Ross, James B. Reynolds, Carl Schurz, Spencer, Trask, John B. Pine, Richard Watson Gilder, and Samuel A. Avery.

Of special interest to suffragists is the fact that the Organization Committee has issued not only enrollment blanks for voters, but the following appeal for women to sign: "We, the undersigned, approve the principles and objects of the Citizens Union, as stated in its declaration, and, believing that an honest, efficient, and intelligent Administration of the city government can best be assured by the success of the Union in the coming municipal election, we appeal to the women of New York to use their efforts, and to exert their influence in support of those principles and objects."

Among those who have already signed are Mrs. Lucy Gibbons Morse, Mrs. Ben All Haggis, Miss Grace H. Dodge, Mrs. Carrie Chapman Catt, Mrs. William M. Putnam, Mrs. Maud Nathan, Dr. Mary Putnam Jacobi, Mrs. Marian W. Chapman, Mrs. Louise Lee Schuyler, Mrs. Josephine Lowell, Miss Adele M. Field, Mrs. Lucia Gilbert Runkle and Mrs. Anna C. Field.

Mr. John B. Pine, a member of the Executive Committee, recently said: "We know all these women can help us very materially and we want to secure the assistance of every one of them." That women have thus been appealed to by men shows to what extent woman's influence is recognized and suggests how much she may accomplish when the right to vote shall be accorded her.

## PRODUCTION.

Of Gold and Silver in the United States in 1896.

Increase of Both Metals as Compared with the Year 1895.

SENATOR PATTERSON Introduces an Incorporate Bill—A Resolution is introduced in the House Requesting the Speaker to Appoint Committee.

WATKINS, Dr. — S. M. Preston, the director of the mint, has about completed his figures of the gold and silver production in the United States during the calendar year 1896. He indicates that the gold produced has increased over \$54,000,000, an increase of over \$6,250,000 as compared with 1895. The production of silver is given as 17,700,000 fine ounces, an increase of 1,900,000 over 1895. The gold produced states with their product last year, in ounces, as compared with Mr. Preston's figures for 1895, are given as follows:

California, 74,000,000; Minnesota, 571,000, increase, 64,375; Montana, 189,000, decrease, 9,339; Arizona, 125,983, increase, 30,908; Idaho, 104,165, increase, 15,177; Utah, 97,445, increase, 13,487; Alaska, 75,100, increase, 18,800.

The production of silver is given in ounces as follows: Colorado first, 18,753,000, decrease \$25,300; Montana, 14,420,000, decrease, 16,700; Nevada, 8,200, increase, 6,000; Idaho, 4,500, increase, 1,439; Arizona, 1,700,000, increase, 715,100. These figures will not be materially changed by the final revision which is now in progress.

SENATOR PATTERSON Tuesday introduced a bill to provide for the submission to a popular vote at the congressional election of 1896 of the following question:

"Shall congress at once enact a law providing for the immediate free and unlimited coining of silver and gold at the ratio of 16 to 1, to be coined for the election of United States senators and of the president and vice-president by direct popular vote?"

It is the duty of the secretary of the treasury to forward the report of the committee to the president for the vote to the president, who is required to transmit the statements to Congress.

## THE OBJECTS

Of Turkey is to Create Delays in the Peace Negotiations,

And to Discover Any Latent Weakness in the European Concert.

The Turks Assume That Thessaly Belongs to Them by Conquest—The Powers Must Show a United Front Before the Sultan Will Release.

LONDON, June 2.—Eastern affairs appear to have reached the drifting stage. The exact position as to the armistice negotiations is not clear. Evidently it is the object of Turkey to create delays and to discover any latent weakness in the European concert.

During the councils of ministers at the Yildiz Kiosk the peace conditions have certainly been discussed, but all mention of Thessaly is studiously avoided. The assumption seems to be that Thessaly will be given to Turkey by compulsion, and that there is nothing more to be said on the subject. The powers will have to show a united and very energetic front before the sultan will release his grip on the Greeks.

In the meantime, in order to remove the impression that she rejects all the peace proposals, Greece has sent another note to her representatives abroad, reiterating that she is prepared to acquire the possession of the islands by payment of a large indemnity if possible.

Queen Olga and the Princess Sophia left Athens yesterday morning en route for the camp of the Greek army to participate in the celebration of the anniversary of her name day. It is reported in some quarters that the crown prince will shortly be married.

The Greek Ambassador sent the side de camp when the sultan appointed to watch him back to Constantinople under escort as a spy, the offer was forthwith rejected by the sultan.

A player on the Greek Constitutional says there is strong reason for believing that Bulgaria is exerting influence to induce the sultan to transform Macedonia into an autonomous province under an imperial prince.

### FROM MIDAIR

A Photograph of the Entire Horizon Line Can Be Taken by a New Invention.

NEW YORK, June 2.—W. A. Eddy, has just taken the first double photograph in midair that has ever been secured. He did that with special apparatus after his own style. By invention it will be possible to take from midair a perfect photograph of the entire horizon line. With his apparatus Eddy claims he can do what no one has attempted to do which will allow a person approaching when it is ten miles beyond the horizon line as seen from a ship's deck. The inventor is confident that his apparatus can be used to great advantage in taking war photographs. Tuesday was taken with two cameras, but it is proposed to arrange eight so that they will photograph the entire horizon at once.

### CHAS. H. SMITH.

Formerly a Prominent Detroit Business Man, Returns to This Country After Being Declared Legally Dead.

Detroit, Mich., June 2.—Charles H. Smith has returned to this country. On May 14, 1890, Mr. Smith, then a prominent business man of Detroit, mysteriously disappeared. His estate was probated in 1890, and he was declared legally dead. Six months ago his closest friend, James Vernon, heard from him, and Monday Mr. Vernon returned from New York where he had met him. Finding no verses, it is said, wrote Mr. Smith away, and he says he will never come back to Detroit. Mr. Smith was formerly a member of the firm of Pingree & Smith. He left Detroit on a sailing vessel. He has visited both America and China, and until Tuesday his family was kept in ignorance of his whereabouts.

### Furnaceans to Strike.

PITTSBURGH, Pa., June 2.—The Committee of Furnaceans in this city, the furnaceans throughout the Ohio and Mahoning valleys contemplate a general strike about July 1 for increased wages. The men have no organization yet, but are uniting on having a strike called by the United Labor sent among them. The plan of the strike, which will include 10,000, is to wait until the weather gets a summer heat, when it is to be struck for. It is to do the same of work, and it is believed the furnace operators will capitulate. The present wages of furnaceans vary from \$1.50 to \$3 per day.

**Interior of Gen. Shelby's Remains.**

KANSAS CITY, Mo., June 2.—A feature of the social life in this city was the interment of the remains of the late ex-confederate general, J. O. Shelby. The body has repose in a receiving vault at Forest Hill cemetery, since the remains were laid to rest.

**Death of a President Newspaper Man.**

BOSTON, June 2.—Adolph Lutettig, the rich son of the man who was a favorite of his father, died at Boston. He held to the grand jury without bail. The examining magistrates said that there was strong circumstantial evidence that a crime had been committed and that he had been connected with the Horaud with the exception of a few years since 1857.

### CONGRESSIONAL.

Several Schools in the Tariff Bill Acted Separately.

WASHINGTON, June 2.—The Senate made good progress on the tariff bill Tuesday morning, but the House did not get to the important metal schedule.

Marble, stone, china, glass, brick and tile were completed with a few minor exceptions.

In behalf of the minority the amendment was introduced by Senator Jones.

It was agreed that the amendment be rejected by a majority of eight to fourteen.

The vote was 37 to 51.

Measures Rawlins and White, democrats, voted with the republicans to increase the rate on the metal schedule.

The republicans against Mr. Jones' proposition for a reduction on castings.

As a sequel to the action of the Senate, Mr. Smith, of New Jersey rose to a question of personal privilege, while the tariff debate was suspended.

Mr. Smith was denied the right to speak again on behalf of the minority.

The majority was also denied by Mr. Hendren.
